Announcement

St. Louis, August 17, 1905.

The OLIVE STREET BANK and the VANDEVENTER BANK take pleasure in announcing to the patrons and customers of the VANDEVENTER BANK that with the intention of uniting their respective good will, assets and business under one management, the office and business of the VANDEVENTER BANK has been removed to the place of business of the OLIVE STREET BANK, corner of Garrison avenue and Olive street, and will be conducted at that place from and after the opening of business at nine o'clock on Thursday morning, August 17, 1905.

Cheques of all depositors of the VANDEVENTER BANK will be honored by the OLIVE STREET BANK, as well as the VANDEVENTER BANK.

The officers, tellers and other employees of the VANDEVENTER BANK will be pleased to meet the depositors and patrons of the VANDEVENTER BANK at the office of the OLIVE STREET BANK.

We bespeak continued cordial relations of our patrons and depositors which we have enjoyed in the past, and promise every accommodation consistent with safe banking.

GOOD INVESTMENT DEMAND

BOOSTS LOCAL SECURITIES.

BANK OF COMMERCE THE

FEATURE.

Nearly All Issues Display Activity

and Prices Are Well

Maintained.

Local securities were unusually active

yesterday on the St. Louis Stock Ex-

change. The volume of transactions was

larger than for several days past, and

prices were strong and well maintained.

The character of the sales indicated out-

side buying for investment. At the close

nearly all stocks were on the uptick.

As has been the case for several days,

National Bank of Commerce was the most

active, closing at \$107. This stock opened

strong at \$107 and worked upward to

\$108.50, at which figure a small lot changed

hands. Other bank and trust company

stocks were active. Third National sold

at \$24.50, Boatmen's at \$20 and Fourth

National at \$20.50.

There was a good demand for traction,

but the transactions in that list were not

very active. The fact that the street

cars were less than for several days

helped to keep the price of the stock

of the United Railways preferred, aggregating

\$100,000, at \$22. This stock opened

strong at \$22 and worked upward to

\$22.50, at which figure a small lot changed

hands. Other traction stocks were active.

American Credit Indemnity sold

at \$10.50, and American Credit Indemnity

at \$10.50.

YESTERDAY'S SESSION.

PREPONDERANCE OF GAINS

IS SHOWN IN STOCKS.

GENERAL LIST SYMPATHETI-

CALLY AFFECTED.

Market Nevertheless Continues

Spotty and Uneven, but Vol-

ume of Trading Is Improved.

New York, Aug. 16.—There was a pre-

ponderance of gains again to-day in the

movement of prices on the Stock Ex-

change, and the market was more in-

fluenced by sympathy on the general list

than those who moved yesterday.

For some time after the opening

indeed, there was a broad and active

market, which enabled traders to operate in

the market with more ease than in the

past few days. The volume of trading

was further large volume of sales to re-

alize profits, without any notable effect

on the price level. This was the period of

the trading which demonstrated the

growth of the outside interest in the mar-

ket.

London discounts hardened again to-

day, and buying for account of that cen-

ter was more active than in the past.

There was a marked decline in animation after

the working off of orders accumulated over

the night in commission houses. The market

then relapsed into its professional charac-

ter, and for some time after the opening

operations by that element to get up prices

large and to serve as sustaining points

for other portions of the list.

The encouragement to continue these

operations to get prices still higher came

largely from the contemplation of the fa-

vorable general conditions and prospects

in the market.

There is some revival, however, of

stories of deals and of combinations sur-

rounding up the market, which are more

effective on sentiment at times of specu-

lation than when the market is more

active. The value of such rumors regarding

the Northern Securities group seems proof

positive, however, that the situation in

the market is more active than in the

past few days. The volume of trading

was further large volume of sales to re-

alize profits, without any notable effect

on the price level. This was the period of

the trading which demonstrated the

growth of the outside interest in the mar-

ket.

PREDICTIONS OF FROST.

LEND STRENGTH TO WHEAT.

COEN ACQUIRES A FIRM

TONE DURING DAY.

Oats Are Strong in Sympathy

With Other Grains, and Pro-

visions Rule Easy on Hog

Receipts.

Chicago, Aug. 16.—Prediction of frosts

for South Dakota and Northern Nebraska

helped to cause a rise in wheat to-day.

Sept. closed 4½¢ up. Corn made a gain

of ½¢, oats are unchanged, provisions

are down 1½¢.

WHEAT.

Wheat, at the outset, had a bullish

undertone, influenced by reiteration of un-

favorable crop reports from Russia, and

similar reports from France and by bread

riots in the south of Spain. Damage from

locusts in Argentina became a factor in

the situation later and gave zest to a

buying movement that began soon after

Sept. started ½¢ off to ½¢ up at 8½¢ to

8½¢, and was bid up to 8½¢.

A large line sold out by brokers sup-

posedly operating for a prominent long

checked the upward trend and caused a

loss of ½¢. News from Russia, though the

general sentiment remained unchanged.

To the bullish foreign news was added

reports from the British Northwest.

Sept. after reaching 8½¢, was car-

ried back by covering short lines, touching

8½¢, at which price the market closed.

Clearances of wheat and flour were

equal to 12,000 bushels, compared with
